Subject: 2021-2022 Academic Year Annual Report of the Academic Appeals Committee

---

Thank you to all who served on the Academic Appeals Committee during the 2021-2022 academic year. This year, 443 (or 20[illegible]) students appealed their disqualification, and 187 were successful; approximately 54% were granted an additional term of probation. Students who are denied this path are tasked with applying for reinstatement in a future term, the AA committee reviewed 231 appeals in this category and 31% of those were granted.

The busiest month for appeals was January when an AAC sub-committee reviewed 151 disqualification appeals. The month with the fewest appeals was June, with only 6 appeals.

An element that should be noted is that of the total 246 GE substitutions, 212 were approved and approximately 48 of those were request[illegible] Committee has noticed this trend again this year and has discussed the tapering off as students become more familiar with the GE patterns.
