

Dear ,

Thank you for your application to Housing and Residential Life. Statewide now, COVID-19 vaccinations are available to California residents of all ages. **To be considered for Residential Housing in Fall 2021-2022, students are required to be vaccinated against COVID-19.** In order to be fully confirmed in housing students will need to upload proof of vaccination **by June 15** via the Student Health Services vaccination site. Otherwise, students will be moved to a waitlist and will lose their spot in line to live on campus. The COVID-19 module on Student Health Services will be available in May. Please watch your CSULB email for updates as this service is provided. If vaccines become available on campus, we will reach out to you to assist you in making appointments.

For assistance with scheduling a vaccine go to <https://myturn.ca.gov>

For more information about the COVID-19 requirement please visit our website at http://web.csulb.edu/divisions/students/housing/campus_housing/faq/
