

	<p>Touch the Classroom Controls console.</p> <p>If using the Instructor Computer, try moving the mouse to check whether it is on. If it does not respond, turn on using the button on the cabinet under the desk.</p>
	<p>If using a mobile device, plug it in using the cables marked "Instructor Laptop". Be sure to plug the sound cable into your device if you plan to play audio from it.</p>
	<p>If using the document camera, press the Document button located on its base.</p>
	<p>To manage devices in the room, keep the following in mind:</p> <ul style="list-style-type: none"> • "Which device do I want to project, and where do I want to project it?" <p>To project a device on the student table displays</p> <ol style="list-style-type: none"> 1. Touch and drag one of the device icons from the middle of the screen to the Preview area. 2. Select the Sync Table Displays to Preview option. i.e. Touch and drag Table 3 to Preview and press Sync Table... <p>To project a device on the projector,</p> <ol style="list-style-type: none"> 1. Touch and drag one of the device icons from the middle of the screen to the Projector area. i.e. Touch and drag Table 1 to Projector <p>To return table displays to their own (local) sources,</p> <ol style="list-style-type: none"> 1. Select All Tables to Local Source (1 under System Presets)

When finished, please:

- Press the "System Off" button on the Classroom Controls console.
- Turn off the document camera.
- Clean the walls and tables of any marker work.
- Leave the PCs running if there is a class following yours.
